# A Legacy of Craftsmanship and Innovation

For over 70 years, Reverattan has upheld a legacy of unparalleled craftsmanship in rattan furniture, tracing its roots back to **Sha Sivadanmull Kheemchand (SSK)**, who began working with rattan raw materials in 1950. Building on this heritage, we have evolved into creators of luxurious, eco-friendly furniture that blends traditional craftsmanship with modern design.

Our furniture is more than just functional pieces; each creation carries the weight of decades of expertise, passed down through generations. We honor the timeless elegance of rattan, while constantly innovating to meet contemporary tastes. With sustainability at our core, we transform nature's finest materials into sophisticated furniture, bringing history and modernity together in every design.

# Our Materials

We take pride in using high-quality, sustainable materials to create our products. Our selection is based on durability, natural beauty, and eco-friendliness. From strong, flexible fibers to finely crafted details, each material is carefully chosen to ensure long-lasting comfort and style, delivering a perfect blend of sustainability and craftsmanship in every piece.

## Rattan Tohiti & Manau

We use two of the finest rattan varieties—Rattan Tohiti and Rattan Manau—both celebrated for their exceptional strength and resilience.

## Rattan Peel

Derived from Segra Rattan, this material is used for intricate weaving. Its natural shades add an organic touch to the furniture.

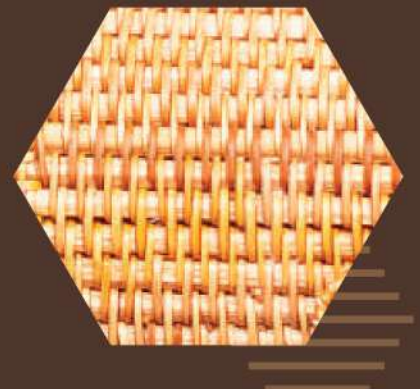

## Lunty Rattan

Lunty Rattan can withstand up to 150 kg. It's the ideal material that makes your furniture sturdy and comfortable.

## Fitrit

Fitrit is extracted from Lunty Rattan. It's used to craft durable indoor furniture, ensuring long-lasting designs.
